- 15:1 student-faculty ratio
- 8 NAIA sports
- 65 clubs and organizations
- 85% of students received financial assistance
- 3 residence halls
- New student apartment-style housing available

Bachelor of Science in Mathematics at Texas Wesleyan University

Why choose to study Mathematics at Texas Wesleyan?

The math faculty at Wesley, with their professional and diverse backgrounds, brings a variety of expertise to the classroom. Classes average 25 students who are immersed in an environment where teaching and service are the most important components. Students learn from experts in the classroom and obtain first-hand knowledge from dedicated faculty, of whom 76% hold doctoral or terminal degrees in their field.

How valuable is a degree in Mathematics?

Graduates with a degree in mathematics are prepared for a variety of careers. State and federal agencies employ mathematical scientists as statisticians, forecasters, technical managers, and as members of research and design teams. Industry employers value mathematicians' technical training, analytical skills and adaptability and hire them for a wide range of positions, often involving computers or statistical analysis. Many mathematics majors choose careers in secondary education as mathematics teachers, which are still in short supply. A mathematics major can lead to graduate study either in mathematics, followed by a career in research or university teaching, or in other professional programs such as in law or medicine.
